

While the driver gets all the attention, the pit crew are the unsung heroes of racing. They keep the cars and drivers racing and are an integral part of every team victory. **Pit Stop** is a fast paced activity where teams of players must work together to get their race car back onto the track as quickly as possible. Team members must work together to change tires, repair engines, and fill the gas tank of their race car using an ingenious card system to simulate the actual experience.

Just like any flourishing enterprise, the keys to a successful pit stop are (1) each team member knowing what to do and in which order (2) clear communication and (3) a well-defined strategy. **Pit Stop** challenges players to balance speed and skill in a lightning speed game of teamwork and communication.

Suitable for developing skills in : Strategy, Working under Tension, Being Proactive, Teamwork, Communication

Duration : 1 hour
